

EVALUESERVE

# Fostering the Mobile Ecosystem by Resolving Lock-in Effects

Oct 2025

# Agenda for Discussion

	The Importance of Interoperability	03
	Research Methodology	04
	Navigating Monetary and Non-Monetary Mobile Switching Costs	05
	Ecosystem Switching Difficulty: Monetary vs. Non-Monetary Costs	06
	Android's Appeal in Japan: Beyond iOS Dominance	07
	Recommendations for a More Open Ecosystem	08

# The Importance of Interoperability: Facilitating a Competitive Market Environment

## For Consumers

01

Enhanced User  
Experience & Choice

02

Secure, Cross-platform Transfer  
of Sensitive Information  
(e.g., eHealth)

## For Industries

01

Increased Innovation &  
Competition

02

Lower Barriers to Entry for  
New Players

03

Reduced Development  
Costs & Time-to-Market

04

Widen User Reach & Market  
Access

# Research Methodology

## A 360-degree Approach

Extensive  
Desk Research

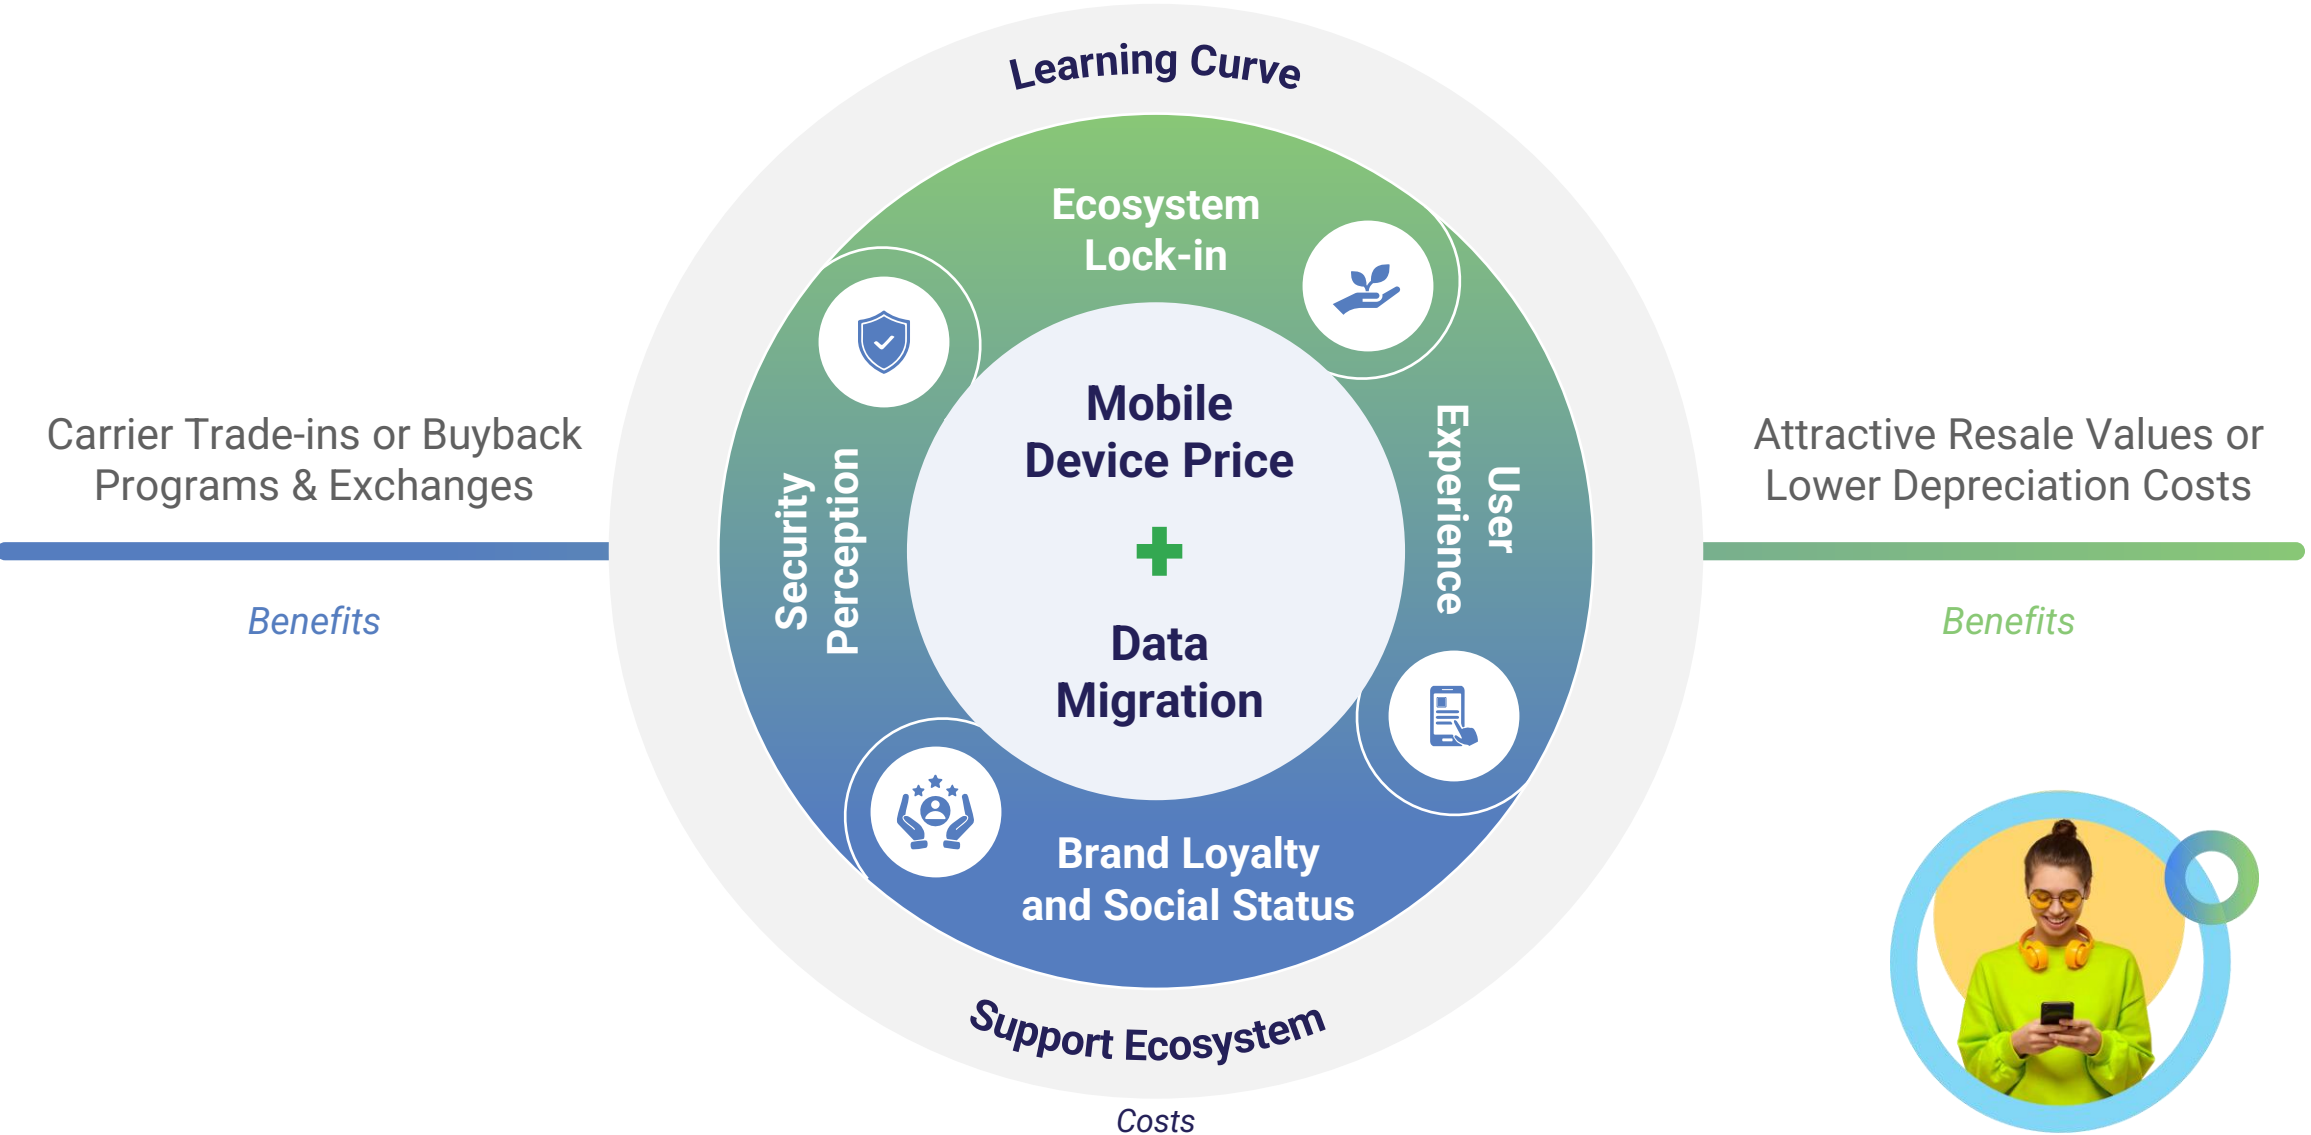

15  
In-Depth  
Expert Consultations

Hands-on  
Device Testing

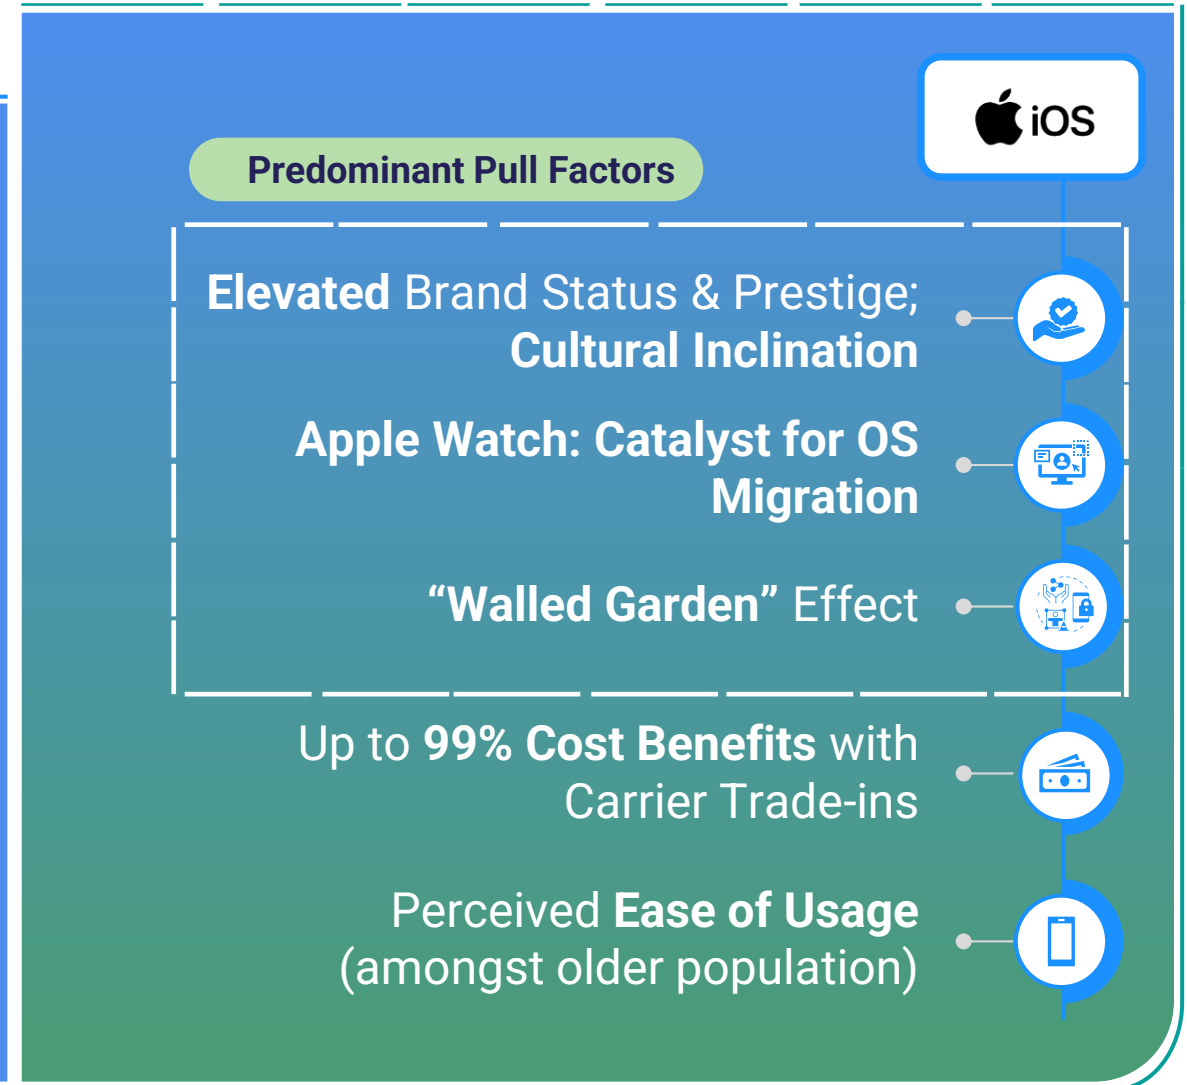

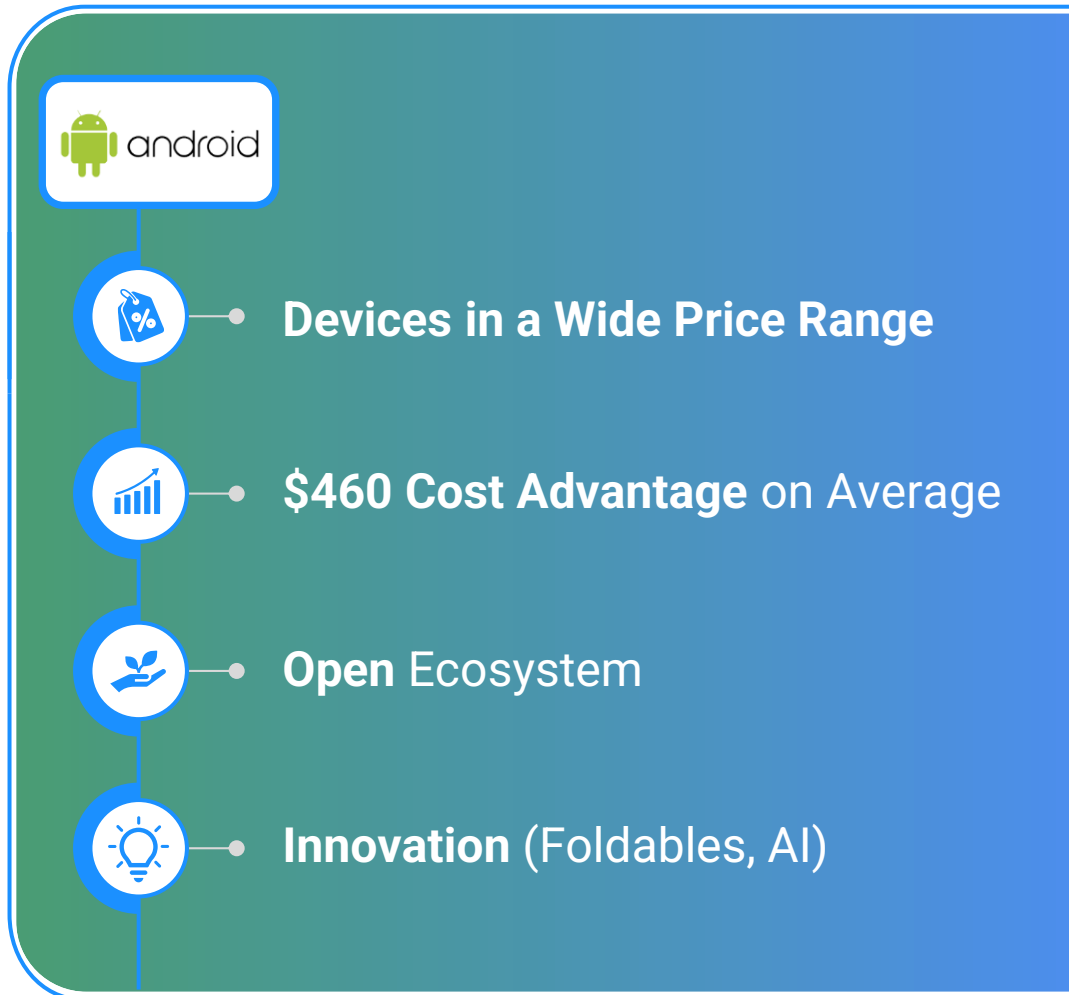

2,250  
Consumer Surveys

# Navigating Monetary and Non-Monetary Mobile Switching Costs

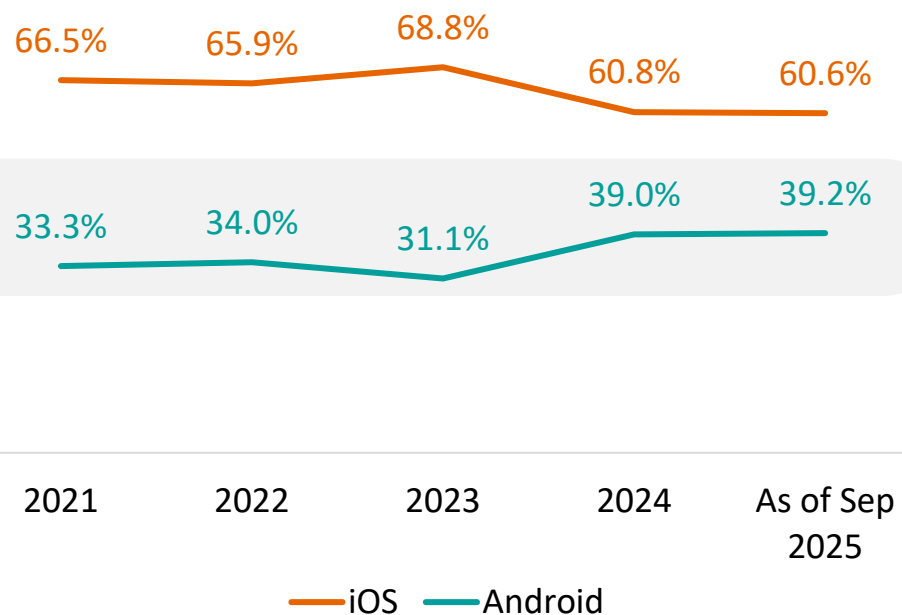

# Ecosystem Switching Difficulty: Android and iOS Platforms

# Android's Appeal in Japan: Beyond iOS Dominance

OS Market Share – iOS vs. Android  
(2021-25)

Source: StatCounter

**Carrier-Friendly** – Ability to customize and pre-load carrier apps

Higher-Degree of **UI/UX Customizations** and the Ability to **Install 3<sup>rd</sup>-Party Apps**

**Foldable Form Factor** Becoming Popular Amongst Tech-Savvy Consumers

**Lucrative Carrier Trade-Ins**

# Recommendations for a More Open Ecosystem

01

## Improve Data Migration When Switching Devices

- Enable Seamless Transfer of Application Data
- Ensure Data Integrity during Transition

02

## Enhance Data Sharing Across OS

- Standardize Peer-to-Peer File Sharing
- Guarantee Cloud Service Access

03

## Better Cross-Device Support

- Enhance Synchronization in Multi-Device Environments
- Develop Interoperable Smart Devices, Especially for Commoditized Features

# Call to Action

01

## Deliver True Interoperability

- **Mandate Data Portability**
- **Standardize Core Functions**
  - Device Setup and Compatibility for Connected Physical Devices
  - High-Bandwidth Peer-to-Peer File Transfer

02

## Empower Consumers And Developers

- **Ensure User-Friendly Defaults**
- **Allow Open App Distribution**
- **Non-Discriminatory Access to Tools**

**Thank you**
